

Check Your Chicken with our
CHICK-O-METER

*...and
Buy HAPPY*

**LOOK
INSIDE**

DID YOU KNOW...

90% of the chickens we eat are crammed into barren sheds on factory farms. Most are bred to grow so fast they can struggle to walk and can develop serious heart conditions.

THE SOLUTION

Buy higher welfare chicken.

When you are in the supermarket, look out for higher welfare labels on chicken products. This leaflet will guide you on which labels mean happier chickens. If you can't see any of these labels ask the store manager what welfare standards their chickens are reared to.

DON'T BUY CRAPPY. BUY HAPPY!

Soil Association

Space to move around
Able to perch, peck and play
Have natural daylight
Healthier breeds used
**Live outdoors most of
their lives**

BETTER FOR CHICKENS

Chickens are healthier, happier and more active when they are bred to grow more slowly and have the space and stimulation they need.

BETTER FOR YOUR FAMILY

Buying higher welfare chicken means you can be sure you are giving your family higher quality meat that's more nutritious too!

BETTER FOR THE PLANET

By choosing higher welfare chicken, eating less and wasting less, we can all help take the pressure off the environment.
